

Big Horn Outdoor Adventure Show

Returns in 2026 with Expanded Seminars and Family Favorites

Spokane, WA - 11/7/25

The Inland Northwest Wildlife Council is proud to announce the return of the 2026 Big Horn Outdoor Adventure Show, one of the region's longest-running and most beloved outdoor recreation events. The show will take place March 19th-22nd, 2026 at the Spokane County Fair & Expo Center, bringing together outdoor enthusiasts of every age for four days of education, adventure, and tradition.

Now in its 64th year, the Big Horn Show is stepping into a new era with an expanded seminar and demonstration series designed to feel like a hands-on "outdoor university." Attendees will have access to a broader lineup of expert-led sessions covering hunting, angling, wildlife conservation, survival skills, outdoor cooking, and backcountry preparedness. From seasoned sportsmen to first-time adventurers, there's something for everyone who wants to learn, connect, and sharpen their skills.

One of the show's most anticipated events, the **Big Horn Show Dinner & Auction**, returns on March 20th. This signature evening brings supporters, vendors, and outdoor advocates together for a night of fundraising, local food, raffles, and exclusive auction items ranging from guided trips to high-end outdoor gear. Funds raised directly support the Wildlife Council's conservation projects, youth programs, and public land stewardship.

The Big Horn Show will once again feature crowd favorites including **Fishing World**, where kids can cast a line and experience the thrill of their first catch; the **archery and pellet rifle ranges**, offering safe and supervised practice for all ages; and aisles of **outdoor vendors** showcasing gear, outfitters, custom crafts, travel destinations, and innovations from across the U.S. and Canada.

"The Big Horn Show has always been about more than gear and gadgets," says Melannie Jones, INWC Executive Director, "It's about traditions—families passing down a love for the outdoors, kids catching their first fish, and our community coming together to support conservation. This year, we're giving people even more ways to learn, connect, and be inspired."
